

# EZ-Cure® Concrete Repair

## Concrete Crack and Void Repair

**Five Star Products Inc. - Fairfield, Connecticut**

The One-Stop Resource  
for Practical and Creative  
Industrial Construction and  
Rehabilitation Solutions.

Five Star® EZ-Cure® Concrete Repair is a one component, easy-to-use repair product designed for filling cracks and voids up to 3/4" in sidewalks, driveways, brick mortar and foundations in a single-step application. The product is a 100% solids, solvent free structural sealant/adhesive that works in environments that are both dry or constantly under or in contact with water. Five Star® EZ-Cure® Concrete Repair comes in convenient 10.1 oz. cartridges that fit into any standard caulk gun.

Grey in color, EZ-Cure® Concrete Repair blends in with most concrete and mortar mix products. With excellent shore hardness and elongation properties, this product is ideally suited to environments subject to the effects of temperature movement and expansion.

EZ-Cure® Concrete Repair is the exclusive brand of Five Star Products and is sold through select retail outlets that carry the Five Star EZ-Cure® line.

**Five Star Products Inc.** was originally founded in 1955 as The Nash Babcock Engineering Company. In 1985 the company was renamed Five Star Products and is known worldwide for its high performance cement and epoxy based products as well as its high strength specialty grout products used in demanding applications such as nuclear power plants. With its focus on developing product solutions for its industrial and commercial customer base, the company holds more than 100 patents worldwide.
